

## Solution Architecture

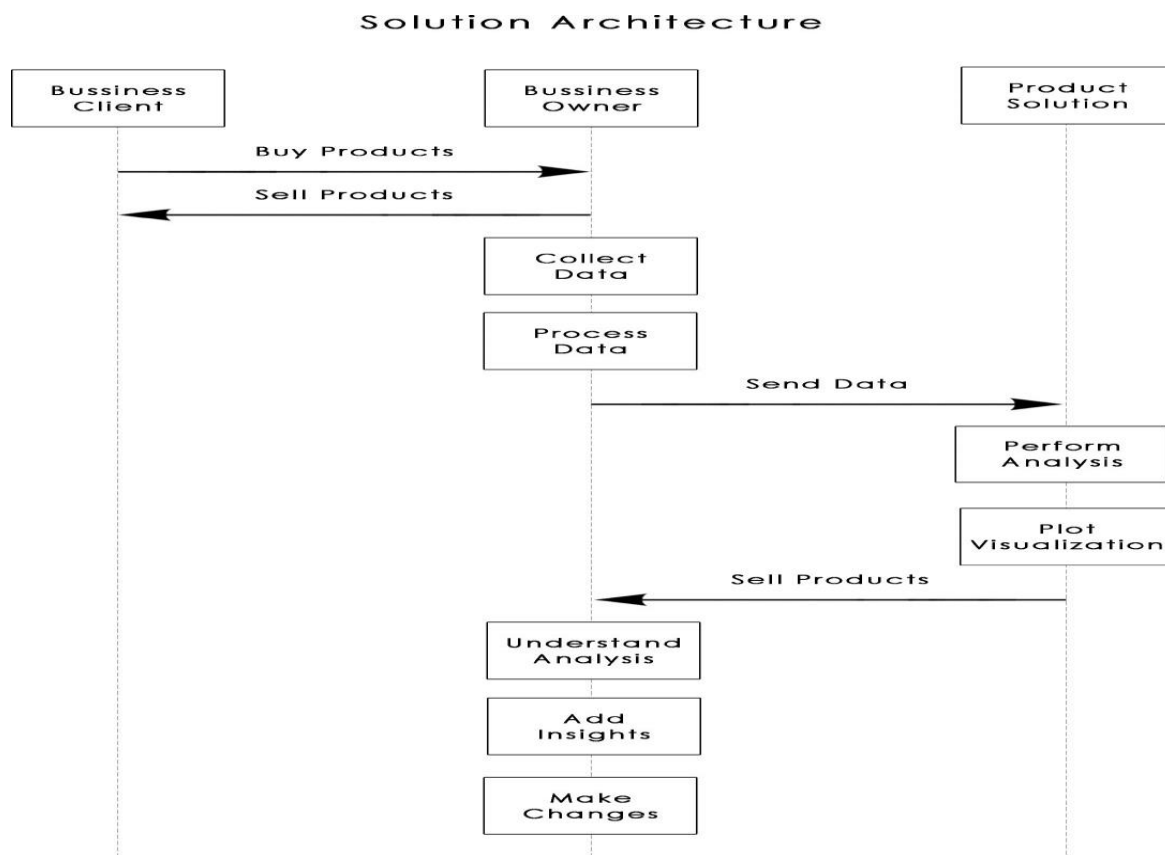

<b>Date</b>	4 October 2022
<b>Team ID</b>	PNT2022TMID06631
<b>Project Name</b>	Project - Global Sales Data Analytics
<b>Maximum Marks</b>	4 Marks

### Solution Architecture:

Solution architecture is a complex process with many sub-processes that bridges the gap between business problems and technology solutions. Its goals are to:

- Find the best tech solution to solve existing business problems.
- Describe the structure, characteristics, behaviour, and other aspects of the software to project stakeholders.
- Define features, development phases, and solution requirements.
- Provide specifications according to which the solution is defined, managed, and delivered.
