The screenshot shows the IBM Cognos Analytics with Watson interface. The main workspace displays a slide titled "RRGION WISE SALES" with a pie chart titled "Sales by Region". The pie chart is divided into segments representing different regions: Canada, Caribbean, East, West, Central Asia, Africa, EMEA, and North Asia. The slide content includes a bulleted list: "Sales by region is presented" and "The value of sales is very low in south region". The interface also shows a "Prepared data" panel on the left with a search bar and a list of data sources. At the bottom, there is a timeline for the slideshow, showing three slides: "RRGION WISE SALES", "Sales by region is presented The value of sales is very low in south region", and "Sales by Region pie chart". The timeline includes a play button and a progress bar.

SAVE THE STORY FILES :

The screenshot shows the IBM Cognos Analytics with Watson interface with the "Save as" dialog box open. The dialog box has a "Name" field containing "SUPERSTORE" and a "Selected destination" dropdown set to "My content". Below this, there is a table listing the contents of the "My content" destination:
